

ENGINEER & DATA SCIENTIST

ALBERTO

I enjoy creating tools that make life easier for my colleagues, like automating repetitive stuff so they have more time to come up with new tasty products.

EDUCATION

Bachelor's Degree in Industrial Engineering

Doctor of Philosophy in Chemistry, specialising in Material Science

Master's Degree in Chemistry

7 years as as Material Scientist in different industries (PepsiCo, Bostik, Reckitt Benckiser)

EXPERIENCE

5 years as a Process Engineer at PepsiCo

1 year as an Engineer & Data Scientist

ROLE AT

PEPSICO

In the **Applied Artificial Intelligence** team, we build digital tools to accelerate new product development, automating routine tasks

My job is to find ways to make sense of all the data we generate to save product developers' time so they can add value creating new tasty food products

TOP TIP!

When I was a student, I did not know half of the jobs I've done even existed! Aim for jobs you will enjoy doing and that will open the door to even more exciting opportunities.
