

FOOD SAFETY DIRECTOR

OPEYEMI

"I like to know the reason why things happen and how things work. My mum owned a food business so I was interested in food science and technology."

**TOP
TIP!**

"Follow your passion and interest, you can be whoever you want to be. Work hard and great things will come your way."

EDUCATION

GCSE's including Physics, Chemistry and Maths

Master's Degree in Nutrition and Food Management

Bachelor's Degree in Food Technology

Master's Degree in Business Administration

EXPERIENCE

15 years working in Food Safety in the Food Industry

ROLE AT

PEPSICO

-  In my food safety team, we use science to develop standards that ensure when food is made in the factory it is always guaranteed to be safe to eat.
-  My job is to make sure product developers and factory operators understand and follow these standards.
